

B&B meissen

Our pension is located close to the centre of Meissen within easy walking distance to the town centre and as well as connected to a local bus service and a railway station. From here we recommend excursions to Albrechtsburg-castle, the famous porcelain manufactory and the historic town centre with its market square, numerous restaurants and nice taverns.

Our room accommodates up to 4 persons and is self-contained with its own shower, WC, TV and small kitchen with cooking facilities and a fridge. Use of a private terrace overlooking the

old town with barbecue-facilities is included (see picture below).

Also included is a dvd-player for which you can make your choice from about 200 movies of our private collection.

Should you want to communicate by e-mail during your stay, this can be arranged by installing an account. You also have free internet-access with an installed computer.

A cycling path along the river Elbe leads to a number of surrounding destinations including Dresden. Bikes can be parked at our garden.

We tried to furnish our pension with a maximum of attention to details, always trying to imagine how we would like this kind of accommodation. Breakfast can be arranged to the individual taste of each

guest as we provide a large selection of food in the fridge as well as fresh bread rolls each morning while we also try to meet any individual requests in this context.
